

Distribution of Swing (Display) by Account

Generated 20 August 2026 at 11:29 · Synthetic / non-production data

Requested view

"Which client accounts have the most volatile daily balance swing? Show the spread of their daily swing, largest first."

Identify client accounts with the most volatile daily balance swing and display the spread of their daily swing, sorted by the largest swing first.

Commentary

The report identifies client accounts with the most volatile daily balance swings, ranked by the spread of their daily swings. The account with the largest swing is 291830171278, showing a maximum swing range from -83,009,992.37 to 88,886,454.01, with a standard deviation of 28,134,547.30. Notably, account 205205184376 also exhibits significant volatility, with a range from -80,741,446.91 to 92,896,812.62 and a standard deviation of 26,852,240.17. Operations should closely monitor these accounts due to their high volatility, which could impact liquidity management.

Box shows the middle 50% of values, the line inside is the median, and the dots are outliers beyond 1.5x the interquartile range.

Limitations of this view

- Showing the 25 most variable of 900 groups, by standard deviation.
- The view is scoped to the value date range from 2026-07-20 to 2026-08-18.
- The Swing (Display) is calculated using static synthetic FX rates.
- Data classification: synthetic, non-production.

What this view cannot tell you

Nothing was asked for that this data cannot supply.
