

Count of Value Amount by Transfer Status - (Transfer Status is FAILED or Message Status contains REJECTED)

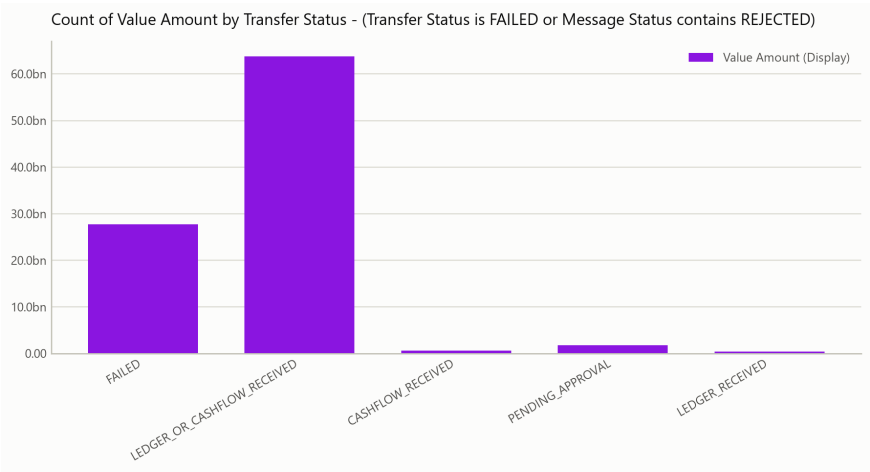

Generated 20 August 2026 at 11:29 · Synthetic / non-production data

Requested view

"Break down transfers that failed or were rejected by their status, with the count and total value in each, and tell me why they failed."

You want a breakdown of transfers that either failed or were rejected, categorized by their status, with the count and total value for each status. Additionally, you want to know the reasons for their failure.

TOTAL COUNT 199 across 5 transfer statuses	LARGEST 98 FAILED - 49.2% of the total	CONCENTRATION 95% of the total in the top 3 of 5
---	---	---

Commentary

The report provides a breakdown of transfers that either failed or were rejected, categorized by their status, along with the count and total value for each status. The most significant category is "FAILED," with 98 transfers totaling a value of 27,651,750,602.51. The "LEDGER_OR_CASHFLOW_RECEIVED" status also represents a substantial portion, with 85 transfers amounting to 63,747,371,116.90. The "CASHFLOW_RECEIVED," "PENDING_APPROVAL," and "LEDGER_RECEIVED" statuses have significantly lower counts and values. The operations team should particularly focus on the "FAILED" and "LEDGER_OR_CASHFLOW_RECEIVED" categories due to their high values and

counts, which may indicate areas needing further investigation.

count peaks at 98, against 63.7bn for the largest series, so plotting it would be a flat line on the axis. It is in the table.

Result data

Transfer Status	count	Value Amount (Display)
FAILED	98.00	27,651,750,602.51
LEDGER_OR_CASHFLOW_RECEIVED	85.00	63,747,371,116.90
CASHFLOW_RECEIVED	7.00	587,299,540.24
PENDING_APPROVAL	5.00	1,704,561,754.20
LEDGER_RECEIVED	4.00	339,478,906.23

Limitations of this view

- 'Value Amount' is held in each row's own currency and this result spans 20 currencies, so adding it would combine unlike units. 'Value Amount (Display)' was used instead, which is FX-translated to a single currency.
- The view is scoped to the value date range from 2026-07-20 to 2026-08-18.
- Amounts are in different currencies and are not directly comparable or summable without conversion.
- The reason for failure is not captured in the available data.

What this view cannot tell you

Nothing was asked for that this data cannot supply.

Dependencies

- Data completeness and accuracy depend on the synthetic nature of the dataset.

How these figures were produced
